

Navigating your Way through Industry 4.0:

Ready Solutions to Maximise, Streamline & Optimise your Workforce

ARE YOU READY FOR INDUSTRY 4.0?

JOIN US FOR A COMPLIMENTARY 1-DAY WORKSHOP!

As one of the most competitive economies in the world, Singapore is well-positioned to gain from Industry 4.0. However, this digital revolution is a major shift for many organisations. Are business leaders prepared to **redefine and re-engineer their business models and processes** by **drawing from technological advances for real transformation?**

Singapore National Employers Federation (SNEF), in collaboration with Singapore Institute of Manufacturing Technology (SIMTech), Manufacturing Productivity Technology Centre (MPTC), welcomes **HR Professionals, HR Directors and Business Leaders** for a **complimentary 1-day session** where you will be able to **adopt and harness SIMTech's technologies, tools and capabilities in automation, processes and systems** to assist your workforce in **improving efficiency and effectiveness!**

READY-TO-GO (RTG) SOLUTIONS YOU CAN ADOPT TODAY:

The old school manual workforce management system is often **time consuming, repetitive and labour intensive**. It is important to adopt a **workforce management system** that is able to improve productivity and reduce costs through efficiency.

Register today to try out first-hand some of the RTG solutions below, ranging from **Manpower Scheduling System** to other **Process Optimisation Solutions!**

FEATURING:

Manpower Scheduling System (MSS) - Express

Includes:

- Shift schedule generation
- Manpower allocation
- Manpower assignment
- Assignment locking
- Dashboarding

OTHER QUICK SOLUTIONS:

Process Optimisation Solutions:

- E-Pay Slip Generator
- Mobile Leave Management
- NFC-based Asset Management System
- E-beacon Tracker
- System Framework

Enjoy complimentary implementation window period for solutions limited to the **first 50 pax only!***
