

# Quick Overview of Risk Assessment (Aligned with SGSecure) - ONLINE

## Course Overview

The **Ministry of Manpower and the Workplace Safety and Health Council (WSHC)**, have enhanced the risk management framework 'Risk Management 2.0'. This **new framework** includes the updating of the Code of Practice on WSH Risk Management to put more focus on Risk Evaluation for Health Hazards. **SGSecure is our community's response to the terror threat.** It is a national movement to sensitize, train and mobilise the community, including workplace, to play a part to prevent and deal with a terrorist attack. It is a **call to action for everyone to unite and safeguard our way of life.** In view of the above, **bizSAFE enterprises are to include SGSecure elements into their bizSAFE programme for bizSAFE application, implementation and renewal.**

All workplaces and bizSAFE enterprises are required to **appoint a SGSecure Representative** in Risk Assessment /Risk Management Team to be **able to identify potential terror threats, and manage these threats** in their Risk Management (RM) Implementation Plans.

Understand the various risk factors and approaches of risk assessment to **assess and integrate safety, health and SGSecure into the concept of Risk Assessment (RA) and Management / bizSAFE.**

## Who Should Attend

- Risk Management Leader/ Champion
- SGSecure Representative
- Top/Senior Management
- HR Manager/Executive/Officer
- Operation Executive/Officer
- Risk Management Team including the Safety officer, project Coordinator, Project Supervisor, operations personnel, Officer/Executive, Manager, Senior Management, and individuals who are keen in knowing and understanding Risk Assessment

## Course Objectives

This course and workshop is designed specifically to introduce Risk Assessment & Management concept and methodologies to the RA and RM team within an organization. Its objective is to help RA and RM team leaders and members for better understanding their roles and responsibilities in the areas of Risk Assessment, so that the team can achieve greater effectiveness in performing their Risk assessment activities.

Under the Workplace Safety and Health (WSH) Act, workplaces are required to have workplace safety and health policies in place. The Risk Assessment has become a compulsory document for carrying out any activities at any workplace and required to clearly communicating the risks and control measures to all employees/staffs. As an employer, Occupier and/or Senior Management of a company, you are responsible to reduce your liability for any incidental happens.
