

Focus and Execute in Uncertainty

1 Day Live-Online

CHALLENGE

Executing on your strategy is never more important than in times of uncertainty, and yet uncertainty makes execution much more difficult. And as urgencies pile up and pull on your focus and concern and uncertainty grow, seeing your most critical strategies collapse is far more likely and nearly unavoidable. It's now more important than ever to bring focus to your organisation during these unpredictable times. How you execute on your strategy NOW is vital to predicting your results in unpredictable times.

SOLUTION

Effective leadership means knowing how to get work done with and through other people. Based on the best-selling book *The 4 Disciplines of Execution*, this one-day live-online session helps you learn and implement a proven process for executing your team's important goals.

THE 4 DISCIPLINES OF EXECUTION®

The 4 Disciplines of Execution are designed to create a winnable game. They give you the power to execute your most important goals in the face of competing priorities and distractions, your whirlwind.
