

Enabling Business & Empowering Workforce

in the COVID-19 World

The Singapore WSH Conference is the premier platform for workplace safety and health stakeholders to share best WSH practices, ideas and experiences, and engage one another to explore opportunities in WSH collaborations across the region. The Conference will take place on 17-18 November as a virtual conference and pivot on the importance of maintaining and upholding best practices in a business operation amidst the COVID-19 pandemic where it has impacted the work, health and safety of employees.

Organised by the Workplace Safety and Health (WSH) Council, Singapore's Ministry of Manpower (MOM), National Trades Union Congress (NTUC) and Singapore National Employers Federation (SNEF), the Singapore WSH Conference brings together regulators, industry leaders and safety professionals to identify problems, formulate recommendations, and develop and implement best practices to ensure the improvement and advancement of safety standards in the workplace.
